INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Capital City Development Corporation
Boise, Idaho

Report on the Financial Statements

We have audited the accompanying financial statements of Capital City Development Corporation (the Agency), a component unit of Boise City, Idaho, as of and for the year ended September 30, 2013 which comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial governmental activities and each major fund of the Agency as of September 30, 2013, and the respective changes in financial position in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and budgetary comparison information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated January 16, 2014 on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That reports is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

CAPITAL CITY DEVELOPMENT CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2013

This section of Capital City Development Corporation's (The Agency's) annual financial report is provided by the management in accordance with GASB requirements to assist the reader in identifying and reviewing key issues and financial activity for the fiscal year ending September 30, 2013. Since this discussion and analysis focuses on the current fiscal year's activities and is a summary, the reader is encouraged to review the financial statements and notes which follow this section to gain a complete understanding of the Agency's finances.

Financial Highlights

- The Agency's total assets exceeded its liabilities at the close of the fiscal year 2013 by \$21,945,403. Of this total, \$12,650,179 is invested in capital assets (net of debt).
- At fiscal year close, the Agency's governmental funds reported a combined ending fund balance of \$22,341,337.
- During fiscal year 2013 the Agency's expenses were \$14,000,815 compared to the \$12,830,616 reported in 2012. The change in expenses was primarily associated increased investment in community development, capital outlay and related expenses.
- Total revenues increased by \$674,048. The majority of the increase was a result of a \$590,289 increase in parking revenue.
- Interest and fees expense on long-term debt in governmental activities decreased by \$270,603 compared with 2012, consistent with the Agency's debt service schedule on outstanding bonds.
- The Agency's key revenues are parking revenues and revenue allocation revenues (incremental tax revenue). Parking revenues increased \$590,289, primarily due to increased parking activity and lengths of stay in fiscal year 2013. Revenue allocation decreased slightly, about 2.6% or \$242,711 in fiscal 2013 as compared to the prior year.

Overview of the Financial Statements

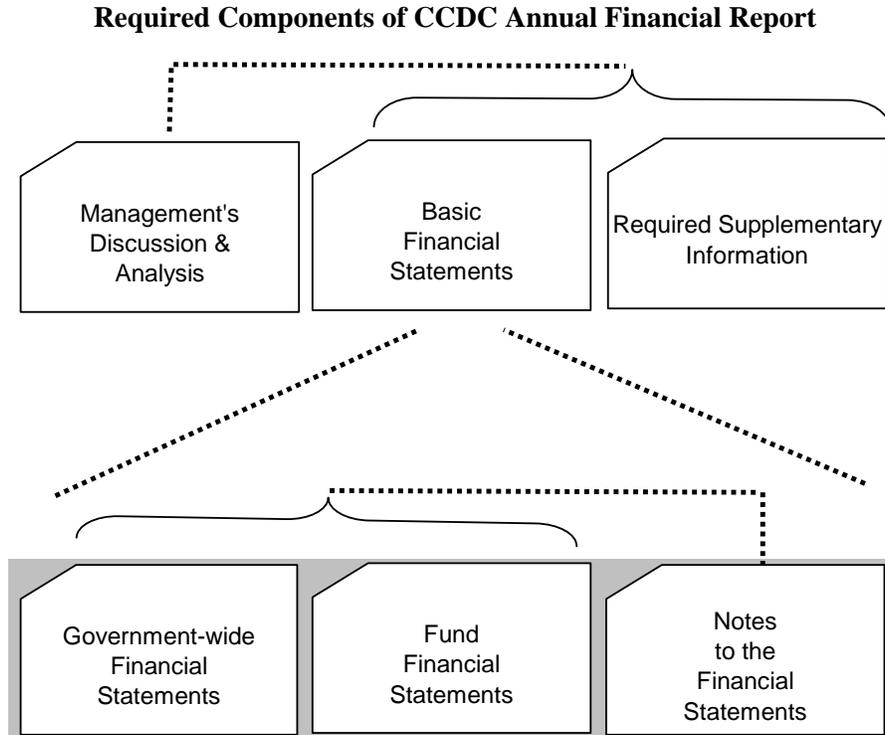

The format of this report allows the reader to examine combined financial statements to view the Agency as a whole (Agency-wide) as well as information on individual fund activities. This financial report consists of three parts: 1) Management Discussion & Analysis, 2) the Basic Financial Statements, and 3) Required Supplementary Information. Viewing governmental activity both as a whole and by individual major fund gives the reader a broader perspective, increases the Agency's accountability and provides a more complete picture of the financial health and activities of the Agency. The basic financial statements include two kinds of statements that present different views of the Agency:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the Agency's overall financial status. The remaining statements are fund financial statements that focus on individual parts of the Agency activities. These statements report the Agency's operations in more detail than the government-wide statements. The governmental funds statements show how general government services such as urban renewal and parking were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

Figure A illustrates how the required parts of this annual report are arranged and relate to one another.

In addition to these required elements, a section is included with the combined statements that provide details about the Agency’s non-major governmental funds, each of which are added together and presented in single columns in the basic financial statements. Figure B identifies the presentation of the Agency’s financial statements as follows:

Major Features of CCDC’s Government-wide and Fund Financial Statements

	Government-wide Statements	Governmental Funds
Scope	Entire Agency government (except fiduciary funds) and Agency’s component units	The activities of the Agency that are not proprietary such as urban renewal
Required financial statements	Statements of: Net Position Activities	Balance sheet Statement of revenues, expenditures and changes in fund balances
Accounting basis/ measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
Type of asset/ liability information	All assets and liabilities, both financial and capital and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received payment is due during the year or soon thereafter

The remainder of this overview section of management’s discussion and analysis explains the structure and content of each of the statements.

Government-Wide Financial Statements

Agency-wide financial statements are designed to parallel more closely the reporting used in private-sector businesses, in that all governmental activities are reported using the same basis of accounting (accrual), and that the statements include a total column to provide information on the Agency as a whole. These statements are designed to better portray the fiscal position of the Agency relative to the prior year.

The Statement of Net Position provides information on all of the Agency's assets and liabilities, with the difference between the two reported as net position. Historical trending of the net position can provide a useful indicator as to whether the financial position of the Agency is improving or declining. The Agency's principal physical assets are land and parking structures.

The Statement of Activities provides information showing changes made to the Agency's net position during fiscal year 2013. Financial activity shown on this statement is reported on an accrual basis (at the time the underlying event causing the change occurs, rather than at the time the cash flows happen). Thus revenue and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods. All of the year's revenues and expenses are accounted for in the statement of activities. The Agency's principal activities relate to planning and facilitation of quality private development, public infrastructure improvements, operation of the downtown parking system, and issuance of debt financing for larger strategic projects. The Agency's program operation, urban renewal activities and parking system operation are included in the governmental activities. The individual district activities are tracked separately and combined for reporting purposes.

Fund Financial Statements

The focus of the fund financial statements is to provide more detailed information about the Agency's major funds rather than the previous focus on fund *types* or on the Agency as a *whole*. A fund is a self-balancing set of accounts that is used to keep track of specific revenues and expenditures related to certain activities or objectives. Some funds are required by State law and some stipulated by bond policies. Operational funds are established by the Board of Commissioners for appropriations and management purposes. All of the Agency's funds are governmental funds.

Governmental funds use *modified* accrual accounting, which measures current economic resources and focuses on changes to the current financial resources. This method is useful in evaluating the Agency's short-term financial resources. Supplemental information following some of the included statements further addresses long-term issues and variances with the government-wide statements. The Agency maintains seven governmental funds: Debt Service Fund (Ada County Courthouse Lease Agreement), Central District Revenue Allocation Fund (urban renewal activities), River-Myrtle District Revenue Allocation Fund (urban renewal activities), Westside District Revenue Allocation Fund (urban renewal activities), 30th Street District Revenue Allocation Fund (urban renewal activities), Parking Fund (parking system activities), and the General Fund.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the information provided in the government-wide and fund financial statements.

Agency-Wide Financial Analysis

Table 1 reflects the condensed FY 2013 and FY 2012 Statement of Net Position. Increases or decreases in net position may vary significantly with variations in debt service payments, the timing of large public improvement projects; or the purchase or sale of land, buildings, and parking facilities. The Agency's combined net position increased \$2,515,549 compared to fiscal year 2012. The increase is the result of deferred capital projects planned for future budget years.

Total assets declined \$3,650,726. The decrease in total assets is attributable to depreciation of capital assets and the decrease in due from other government units.

Approximately 58% of the Agency's net position is invested in capital assets (i.e. land, buildings, equipment, parking facilities, and other) with the balance remaining in other net position to provide for ongoing obligations and subsequent year activities.

Revenues: *Charges for Services* include lease revenues from the Ada County Corridor Project. *Operating Grants & Contributions* include property tax increment revenues. *Parking* revenues include proceeds generated from operating the parking garages. *General Revenues* include earnings on investments. Overall, total Agency revenues increased approximately \$674,048 compared with the prior year. Additionally, tax increment revenues declined about \$242,711 compared to fiscal 2012, reflecting economic conditions and lower property values.

Expenses: *Community Development* includes the general expenses of the Agency related to fulfilling its mission. *Interest on Long-Term Debt* includes the interest portion of payments related to long-term financing arrangements. *Parking Facilities* includes the cost of operating the parking system. Overall, total Agency expenses in fiscal 2013 increased approximately \$1,170,199. The change in expenses was primarily associated increased investment in community development, capital outlay and related expenses.

Budgetary Highlights

The fiscal 2013 budget was amended once during the year. The budget was decreased for amounts related to timing of capital improvement projects that were continued into the next fiscal year. The budget for operational expenses was also decreased.

Capital Assets

Tables 3 and 4 present the Agency's capital assets. The Agency's did not have major capital asset activity during the fiscal year. The change in capital assets was primarily attributable to depreciation.

Economic Factors

The effects of the economic downturn continue to be present in the downtown, but are showing signs of recovery. For fiscal 2013, as compared with fiscal 2012, property values continued some decline however rates increased slightly in the redevelopment districts, resulting in stable revenues.

The economy is showing signs of recovery. It is expected that property values have generally stabilized and are beginning to increase in fiscal 2014. Major new construction projects at the Owyhee Hotel, Trader Joes, JUMP and 8th and Main sites are all underway. The Agency has seen a renewed level of interest in downtown development across multiple use types and proposals for additional projects are in the project assessment stage. The Agency remains both conservative and optimistic in its economic outlook during this transitional time of economic recovery.

BALANCE IN THE BALANCE SHEET
SEPTEMBER 30, 2013

Amounts reported for *governmental activities* in the Statement of Net Position are different because:

Total fund balance		\$ 22,341,337
--------------------	--	---------------

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Cost of land	3,943,660	
Cost of construction in progress	470,821	
Cost of buildings, improvements, and equipment	30,424,553	
Accumulated depreciation	<u>(12,635,665)</u>	22,203,369

Future payments for which the underlying transaction has occurred are recorded as revenue on the Statement of Activities, but are not available soon enough to pay current year expenditures and therefore are deferred in the Governmental Fund Statements.

Notes receivable from Ada County	38,680,000	
Interest receivable	<u>238,030</u>	38,918,030

Capital leases are recorded on the liabilities on the Statement of Net Position, but are recorded as expenses as cash payments are made on the Governmental Fund Statements. (13,190)

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

Capital City Development Corporation (the Agency) is an urban renewal agency created by and existing under the Idaho Urban Renewal Law of 1965, as amended, and is an independent public body, corporate and politic. The Agency provides urban renewal services to the City and its citizens. The commissioners are appointed by the Mayor and approved by City Council. These statements present only the funds and account groups of the Agency and are not intended to present the financial position and results of operations of Boise City, Idaho in conformity with generally accepted accounting principles.

The Agency is a component unit of Boise City and its financial activities are discretely presented in the City's basic financial statements.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position) report information on all of the non-fiduciary activities of the Agency. For the most part, the effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, service or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Agency considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

The Agency reports the following major governmental funds:

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. This fund currently accounts for the activities related to the Ada County Courthouse Corridor project debt service.

Central District Revenue Allocation Fund – The Central District accounts for the revenues derived from the revenue allocation area within the Central District and was established as a funding mechanism to provide public infrastructure improvements. The revenues are first pledged to repay the Series 2010 A-1 and 2010 A-2 Refunding Redevelopment Bonds. Any excess revenues may be expended in accordance with the provisions of the Revenue Allocation Law.

River Myrtle Revenue Allocation Fund – The River Myrtle District accounts for the revenues derived from the revenue allocation area within the River Myrtle District and was established as a funding mechanism to provide public infrastructure improvements. The revenues are first pledged to repay the Series 2010 B-1 and 2010 B-2 Refunding Redevelopment Bonds, the 2010 C Revenue Refunding Note and the 2011 B Revenue Refunding Note. Revenues may only be expended in accordance with the provisions of the Revenue Allocation Law.

Westside Revenue Allocation Fund – The Westside District accounts for the revenues derived from the revenue allocation area within the Westside District and was established as a funding mechanism to provide public infrastructure improvements. Revenues may only be expended in accordance with the provisions of the Revenue Allocation Law.

30th Street Revenue Allocation Fund - The 30th Street District accounts for the revenues derived from the revenue allocation area within the 30th Street District and was established as a funding mechanism to provide public infrastructure improvements. Revenues may only be expended in accordance with the provisions of the Revenue Allocation Law.

Parking Fund – This fund includes the parking activities of the Agency at the following parking facilities: Boulevard garage, Capitol Terrace garage, City Centre garage, Eastman garage, Grove Street garage and Myrtle Street garage. The revenues of the Parking Fund are pledged to support the operations of the Fund and the repayment of the Series 2010 A, 2010 B, 2010 C and 2011 B debt. Net parking revenues are otherwise unrestricted and are used for parking system operations and maintenance and are also available for general Agency use.

General Fund – This fund includes the personnel costs for Agency staff, general office operations as well as downtown-wide activities and program delivery.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as program revenues include: 1) charges for services, or privileges provided, 2) operating grants and contributions (which includes revenue allocation funds), and 3) capital grants and contributions (which includes reimbursement from Ada County for the courthouse construction). Internally dedicated resources are reported as general revenues rather than as program revenues. When applying revenues to a program for which unrestricted and restricted revenues are used, restricted revenues are applied first.

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

Cash and Investments

Cash represents all cash on hand and in banks. Investments with original maturities of three months or less from the date of acquisition are also considered cash.

Investments

Investments are stated at fair value, as determined by quoted market prices, except for any certificates of deposit, which are non-participating contracts, and are therefore carried at amortized cost. Interest earned is allocated on a basis of average investment balance. Idaho Code provides authorization for the investment of funds as well as to what constitutes an allowable investment. The Agency policy allows for investment of idle funds consistent with the Idaho State Code 50-1013.

The Code limits investments to the following general types:

Certain revenue bonds, general obligation bonds, local improvement district bonds and registered warrants of state and local governmental entities.

Time deposit accounts, tax anticipation and interest-bearing notes.

Bonds, treasury bills, debentures, or other similar obligations of the United States Government and United States Government Agencies.

Repurchase agreements secured by the above.

Investments in certificates of deposits are stated at amortized cost. Investments in U.S. Treasury securities are stated at amortized cost.

Custodial Credit Risk

For deposits and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Agency will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of an outside party. The Agency limits its investments to institutions that are registered with the State of Idaho Department of Finance that adhere to the Securities and Exchange Commission Rule 15C3-1 (uniform net capital rule). Non-bank broker/dealer firms and individuals doing business with the Agency must be registered with the National Association of Securities Dealers.

Credit Risk

Credit risk is the risk that an issuer of debt securities or another counterparty to an investment will not fulfill its obligation and is commonly expressed in terms of the credit quality rating issued by a nationally recognized statistical rating organization such as Moody's, Standard & Poor's or Fitch's. The Agency's policy does not restrict them to rated investments. As of September 30, 2013, none of the investments of the Agency were rated.

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

Property Taxes Receivable and Unearned Revenue

Property taxes are recognized as revenue when the amount of taxes levied is measurable, and proceeds are available to finance current period expenditures.

Available tax proceeds include property tax receivables expected to be collected within sixty days after year end. Property taxes attach as liens on properties on January 1, and are levied in September of each year. Tax notices are sent to taxpayers during November, with tax payments scheduled to be collected on or before December 20. Taxpayers may pay all or one half of their tax liability on or before December 20, and if one half of the amount is paid, they may pay the remaining balance by the following June 20. Since the Agency is on a September 30 fiscal year end, property taxes levied during September for the succeeding year's collection are recorded as unearned revenue at the Agency's year end and recognized as revenue in the following fiscal year. Ada County bills and collects taxes for the Agency.

The Agency earned property taxes during the year in the amounts of \$2,782,837, \$4,516,386, and \$1,701,053 from Central District, River Myrtle Old Boise District, and Westside District, respectively.

Accounts Receivable

The Agency provides credit based on contractual agreements in the normal course of business. An allowance for doubtful accounts is based on management's review of the outstanding receivables, historical collection information and existing economic conditions. Accounts receivable are past due based on the terms of the contracts and interest is charged on overdue receivables on a case-by-case basis as allowed by the contracts. Based on management's review of accounts receivable, no allowance was deemed necessary as of September 30, 2013.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000. Assets are recorded at historical costs or estimated historical cost if purchased or constructed. Donated capital assets are valued at their estimated fair value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets lives are not capitalized.

Depreciation is computed using the straight-line method, over the estimated useful lives of the assets as follows:

	<u>Estimated Useful Life (Years)</u>
Buildings	30 - 45
Improvements	10 - 45
Parking equipment	7
Office furniture & equipment	3 - 10

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

Investment in Property Held for Resale or Development

Property held for resale or development includes several properties in the River Myrtle and Westside Districts.

Property held for resale or development is reflected in the accompanying balance sheet. In furtherance of the Agency's purpose of redevelopment of downtown Boise, these properties may be disposed of for consideration that is substantially less than carrying value.

Fund Equity

The Agency established accounting policies related to Fund Balance Reporting and Governmental Fund Type Definitions. This statement redefines the elements of fund balance in governmental funds and more clearly describes the different types of governmental funds to make the nature and extent of the constraints placed on a government's fund balance more transparent. The governmental fund types classify fund balances as follows:

Fund balance is reported as nonspendable when the resources cannot be spent because they are either legally or contractually required to be maintained intact, or are in a nonspendable form such as inventories, prepaid accounts, and assets held for resale.

Fund balance is reported as restricted when the constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Fund Balance is reported as committed when the Agency Board of Commissioners passes an ordinance or resolution that places specific constraints on how the resources may be used. The Board of Commissioners can modify or rescind the ordinance or resolution at any time through passage of an additional ordinance or resolution, respectively.

Fund Balance is reported as assigned when it is intended for a specific purpose and the authority to "assign" is delegated to the Agency's Executive Director.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been restricted, committed, or assigned within the General Fund. This classification is also used to report any negative fund balance amounts in other governmental funds.

The Board of Commissioners adopted a Fund Balance Policy that recommends a spending order of restricted, committed, assigned and then unassigned unless the Board approves otherwise.

Per the guidance in the policy, the Board established that an emergency repair reserve in the minimum amount of \$500,000 shall be on hand as of September 30th of each fiscal year in the Parking fund. Funds within this reserve may be used intra-fiscal year for unforeseen, non-routine repair and maintenance expenditures in the garages when failure to do such repair and maintenance could adversely affect life safety or the ability to operate the garage(s) normally in the immediate future. The Board will evaluate the emergency repair reserve amount as part of each fiscal year's budget process and may amend the amount by resolution as it deems appropriate. The balance in the Parking Emergency Repair Reserve fund as of September 30, 2013 was \$500,000.

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

The Board further determined that it may be appropriate to set aside funds apart from working capital for a future project or initiative pursuant generally to the budget and related documents such as the capital investment plan and parking reinvestment program. The Board delegated its authority to assign funds in this manner to the Executive Director. As of September 30, 2013, \$4,685,672 was assigned in the Parking fund for parking reinvestment projects and commitments budgeted in fiscal 2014.

Estimates

The preparation of the Agency's financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates used in the report relate to the estimated allowance for doubtful accounts for certain accounts receivable. It is reasonably possible that the significant estimates used will change within the next year.

New Accounting Pronouncements

The Agency adopted Statement No. 62 of GASB, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB & AICPA Pronouncements* (Statement No. 62). Statement No. 62 incorporates into the GASB's authoritative literature certain accounting and reporting literature issued by the Financial Accounting Standards Board (FASB) and American Institute of Certified Public Accountants (AICPA) on or before November 30, 1989, which is not in conflict with or contradicted by GASB pronouncements. This literature includes FASB Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the AICPA Committee. Upon implementation of Statement No. 62, the Agency follows guidance issued by GASB, unless a particular topic is not addressed by GASB. In that case, the Agency would follow other accounting literature from the FASB that is considered a lower tier of GAAP than standards promulgated by GASB. The more significant of the Agency's accounting policies are described below.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. GASBS No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The statement of net assets is renamed the statement of net position and includes the following elements: assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Although the provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011, the entity implemented this statement in fiscal year 2013.

NOTE 2 – INVESTMENTS

Funds in the Local Government Investment Pool are invested in accordance with Section 67-1210 and Section 67-1210a of the Idaho code with safety of principal as the foremost objective of the investment program. The funds are collateralized by securities but are not insured. The LGIP was unrated as of September 30, 2013.

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

Interest Rate Risk

Interest rate risk is the risk a government may face should interest rate variances affect the fair value of investments. The Agency’s policy does not limit the maturities of their investments. As of September 30, 2013, the Agency had the following investments subject to interest rate risk.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in years)</u>		<u>Credit Rating</u>
		<u>Less than one</u>	<u>1-5</u>	
LGIP	\$ 3,006,935	\$ 3,006,935	\$ -	n/a

Concentration of Credit Risk

Per GASB Statement No. 40, Concentration of Credit Risk is defined as the risk of loss attributed to the magnitude of a government’s investment in a single issuer. The Agency’s policy is to avoid concentration in securities from a specific issuer or business sector other than U.S. Securities. However, the policy does not specifically limit the concentration in any single issuer. No single issuer exceeded 5% of the total investments. At year end, the carrying amount of the Agency’s deposits was \$16,266,448 and the bank balance was \$16,341,467. The bank balance of \$250,000 was covered by federal depository insurance. All cash is held in national financial institutions located in Ada County.

Investment in Partnership

The Agency has made both cash and non-cash contributions to River Plaza Limited Partnership (the Partnership) in exchange for an ownership interest as the special limited partner. The Partnership owns an apartment complex. The Agency has recorded the investment on the cost basis of \$130,000. In accordance with the partnership agreement, there are no gains or losses allocated to the Agency. If the assets of the Partnership are sold or liquidated, the Agency is entitled to a 36.8% interest in the residual distribution upon sale or refinancing. There are no plans for sale or refinancing.

NOTE 3 – RESTRICTED ASSETS

The Agency has four revenue allocation funds, one for each of its four revenue allocation districts. Title 50, Chapter 20 of the Idaho code delineates the purposes for which revenue allocation funds may be spent by urban renewal agencies, along with the purposes set forth in the Agency’s several urban renewal plans. Since the use of funds is proscribed in statute, the fund balance of the revenue allocation funds is considered restricted under the definitions provided in GASB Statement 54. Therefore, fund balance in its entirety is reported as restricted on the fund financial statements. Restricted fund balance as of September 30, 2013 for Central, River Myrtle and Westside is \$2,397,647, \$3,932,263 and \$3,765,016 respectively. The restricted balance in the Parking fund is \$2,238,391 and is restricted for reserves on the outstanding bonds. The restricted balance in the General Fund is \$36,823 and is restricted for a grant designated for a specific purpose.

Restricted assets are held by the Agency’s agent in the Agency’s name. Investments are generally held until maturity. The bond resolutions limit investments to certain types of securities which meet defined standards.

NOTE 4 – INTERFUND TRANSFERS

Interfund transfers are made for two primary purposes. Transfers are made as a method of allocating the cost of program operations to their respective funds. Transfers are also made from the revenue allocation funds to the parking fund to cover the debt service payments on the bonds.

NOTE 5 – DUE FROM OTHER GOVERNMENTAL UNITS

NOTE 8 – EMPLOYEE BENEFIT PLANS

Defined Benefit Pension Plan

Public Employee Retirement System of Idaho (PERSI) - The PERSI Base Plan, a cost sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The Plan provides benefits based on members’ years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. The authority to establish and amend benefit provisions is established in Idaho Code. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with PERSI. After 5 years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.0% of the average monthly salary for the highest consecutive 42 months.

Lease Other

The Agency has entered into an agreement with Ada County on the County Courthouse Project. The Agency has leased approximately 10.3 acres of land owned by Ada County under a master ground lease obligation that expires in 2098. The Agency issued bonds, Series 1999 for the County Courthouse Project in the amount of \$62,620,000 to finance the acquisition, construction and improvement of the courthouse and administration building for use by Ada County, and related parking facilities, integrated retail space and other public improvements. The Agency refunded the Series 1999 bonds and issued the Series 2005 bonds. The bonds are the obligation of the Agency, payable from and secured solely by lease payments made by Ada County under the agreement. The agreement provides for lease payments equal to the amount necessary for the payment of annual debt service requirements for the Series 2005 bonds. The Agency plans to lease the Courthouse to Ada County for the remaining twelve years of the bond obligation, with title reverting to Ada County at the end of that term. Upon satisfaction of the outstanding lease obligation, Ada County may purchase the facilities from the Agency for \$1.

The Agency has recorded the transaction as a capital lease receivable for \$38,680,000. This receivable will be received over the remaining eleven years of the term.

The Agency entered into an agreement with Eleven Eleven West Jefferson LLC to lease 200 parking permits in the Boise Plaza Parking garage for a period of five years. The Agency has the right to sell the parking permits to the public in compliance with the rates in its parking management plan. The lease term is for sixty months following the effective date. The lease became effective on June 29, 2009, sixty days after the certificate of occupancy was issued. The annual lease rate is \$213,600 and payment is due in advance on October 1st of each fiscal year. The lease terminates June 29, 2014.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

The Agency agreed to take responsibility for the match requirement for the Federal Transportation Authority Multi Modal Center grant that is administered through Valley Regional Transit. The match responsibility was previously the obligation of Boise City. The total match requirement may be up to \$2,392,508. Of this total requirement, \$281,827 has already been met, leaving a remaining maximum match commitment of \$2,110,681. If the actual match is less than \$2,110,681, the Agency will provide funding up to a total of \$2,110,681 inclusive of the grant match to other projects identified in the Downtown Mobility Study.

The Agency established a separate bank account in which to deposit funds for the match.

CAPITAL CITY DEVELOPMENT CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2013

The Agency agreed to enter into an Owners Participation Agreement (OPA) and related agreements with the Gardner Company, the developer of the project at 8th and Main in the Central District. The project is a 18 floor office building with a value estimated by the developer at \$50 to \$60+ million. The Agency's financial participation will involve an anticipated amount up to but not exceeding \$4 million of public improvements and site remediation. The OPA sets out conditions of performance that must be met to become eligible for financial participation.

NOTE 11 – SIGNIFICANT CONTRACTUAL AGREEMENTS

The Agency is party to numerous agreements related to the development of the parcels in the Ada County Courthouse Corridor. In 2011, the various agreements were amended to facilitate the refunding of the 2002 B bonds with the 2011 B Revenue Refunding Note. The Business Terms Sheet/Funds Flow calculation was one of the agreements amended. Under the terms of the amended agreement, the tax increment guarantee for the Idaho Place parcels was restated as \$245,000 for fiscal year 2011, increasing 3% each year thereafter through fiscal year 2024. The developer will receive credit against the guarantee amount for any actual increment received from the subject parcels. The supplemental rent obligation on the apartment parcels in the Courthouse Corridor is stated in the Business Terms Sheet as \$289,865 for fiscal year 2011, increasing 3% each year thereafter through fiscal year 2024. The developer will receive credit against the supplemental rent amount for any actual increment received from the apartment parcels. During fiscal year 2013, the tax increment guarantee and supplemental rent obligations in the amounts of \$143,572 and \$98,754 were received in full.

NOTE 12 – PLEDGED REVENUES

The Agency has certain long-term debt obligations for which revenues have been pledged. The Agency issued the Series 2010 A bonds to refund the 1995A, 1995 B, 1998 and 1999 bonds. Amounts in the 2010 A bond fund are pledged to support this debt. One twelfth of the annual debt service is to be deposited into the bond fund each month. The source revenues for the deposits into the bond fund are revenue allocation from the Central District and parking revenues from the parking system. The 2010 A bonds mature in 2015. The bond fund is pledged until the bonds mature. For the year ended September 30, 2013 the total debt service on these bonds was \$1,195,201.

The Agency issued the Series 2010 B bonds to refund the 2004 A and 2004 B bonds. Amounts in the 2010 B bond fund are pledged to support this debt. One twelfth of the annual debt service is to be deposited into the bond fund each month. The source revenues for the deposits into the bond fund are revenue allocation from the River Myrtle District and parking revenues from the parking system. The 2010 B bonds mature in 2024. The bond fund is pledged until the bonds mature. For the year ended September 30, 2013, the total debt service on these bonds was \$841,593.

The Agency issued the Series 2010 C Revenue Refunding Note to refund the 2002 C bonds. Amounts in the 2010 C note fund are pledged to support this debt. One twelfth of the annual debt service is to be deposited into the note fund each month. The source revenues for the deposits into the note fund are revenue allocation from the River Myrtle District and parking revenues from the parking system. The 2010 B Revenue Refunding Note matures in 2024. The bond fund is pledged until the bonds mature. For the year ended September 30, 2013, the total debt service on this note was \$248,027.

SUPPLEMENTARY INFORMATION

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Commissioners
Capital City Development Corporation
Boise, Idaho

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, and each major fund of Capital City Development Corporation (the Agency), a component unit of Boise City, Idaho, as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated January 16, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

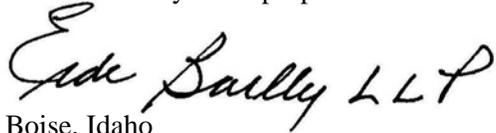

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not yet been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
